

Brian Kyle L. Salor

Junior Software Developer

Taguig City, Philippines | Phone: +63 970 540 6985 | Email: briankylesalor02@gmail.com | Portfolio: brian-k05.github.io/Portfolio | GitHub: github.com/Brian-K05 | LinkedIn: linkedin.com/in/brian-kyle-salor-786999359

PROFESSIONAL SUMMARY

Junior software developer. I ship Laravel, Node.js, and Python web systems from a brief to a live URL. 486-hour internship at Machica Firm: production insurance APIs still in daily use (no public URL). Public demos: SlotBook, DeskFlow, PaperOut. BSIT, Leyte Normal University, 2022–2026.

TECHNICAL SKILLS

Used on shipped work: Laravel, PHP, Node.js, Express, SQLite, JavaScript, Python, Flask, python-docx, REST APIs, MySQL, Supabase, Git / GitHub. **Automation:** Business process automation, email and SMS, document generation. **IT Technical Support:** Windows 10/11, desktop support, network troubleshooting, printer support. **Also used:** React, Angular, Flutter, React Native, Kotlin.

WORK EXPERIENCE

IT Intern (Software Development and Technical Support)

Machica Firm, Inc. | February 2026 — May 2026

- Designed and implemented an Insurance Data Management and Business Process Automation System that leadership approved and deployed. Still used in daily operations. No public URL — the company owns the live system.
- Built REST APIs, authentication, database architecture, and automation with Node.js and Supabase — Gmail SMTP, Semaphore SMS, Excel reporting, and document generation.
- Helped deploy, test, and debug production systems over a 486-hour internship.
- Supported desktops, printers, software, and networks; installed and configured Windows and business software.

Freelance Software Developer

Self-Employed | 2024 — Present

- Shipped a Laravel booking and payment system for an editing business (AWS Lightsail). Live URL and repository stay with the client.
- Take freelance work from requirements through testing, deploy, and maintenance.

SELECTED PROJECTS

SlotBook

Public demo — Laravel, PHP, MySQL · slotbook-production.up.railway.app · github.com/Brian-K05/SlotBook

- Guests pick a day and hour on the calendar; the same slot cannot be booked twice.
- Admin confirms, cancels, or marks paid (flag only — no payment API). Dummy data. Feature tests in the repo. Live demo.

DeskFlow

Public demo — Node.js, Express, SQLite · deskflow-w1n5.onrender.com · github.com/Brian-K05/Deskflow

- Staff/client roles; clients are scoped to their own rows. Dummy logins on the sign-in page.
- Status workflow and staff CSV export. Tests cover the visibility rule. Live demo (Render free plan: first load after idle about one minute).

PaperOut

Public demo — Python, Flask, python-docx · web-production-97c62.up.railway.app · github.com/Brian-K05/PaperOut

- CSV in, one Word certificate per row in a ZIP; first row proofs on A4. Header validation; sample CSV in the repo.

- Dummy names — not a live credential. Live demo and public repository.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Leyte Normal University

2022 — 2026

CERTIFICATIONS AND ACHIEVEMENTS

Internship Completion Certificate — Machica Firm, Inc. (486 Hours)

Competence in Practicum Award

Computer Systems Servicing NC II (TESDA)

Hosted webinar — Scalable Applications with Hexagonal Architecture (November 19, 2025)

Organized and hosted the session. A Senior Software Engineer from Jetstar Airways gave the talk.

ASEAN AI Hackathon 2026 — Certificate of Participation

Passage to ASEAN and ASEAN AI Council. Team participant.
