PROFESSIONAL SUMMARY

Junior Software Developer with a Bachelor of Science in Information Technology from Leyte Normal University (16 June 2026). Completed a 486-hour internship at Machica Firm, Inc., where I built a production insurance workflow system with one co-intern; three staff members were using the system at the end of the internship. Public demonstration projects in Laravel, Node.js, and Python include live URLs and automated tests.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python
Backend: Laravel, Node.js, Express, Flask, REST APIs
Frontend: Blade, HTML, CSS
Data: MySQL, SQLite, Supabase
Automation: SMTP, SMS, Excel reporting, python-docx
IT support: Windows 10/11, desktop support, network troubleshooting, printers
Tools: Git, GitHub

WORK EXPERIENCE

IT Intern (Software Development and Technical Support)

Machica Firm, Inc. | February 2026 - May 2026

- Developed an insurance data and workflow system with one co-intern using Node.js REST APIs, authentication, and Supabase. Leadership approved deployment. Three staff members were using the system at the end of the internship. The company retains the live URL.
- Implemented operational automation on that system, including Gmail SMTP, Semaphore SMS, Excel reporting, and document generation.
- Tested, deployed, and provided technical support for the live system over 486 hours, including Windows 10/11, printers, and network troubleshooting.

SELECTED PROJECTS

SlotBook

Laravel, PHP, MySQL | slotbook-production.up.railway.app | github.com/Brian-K05/SlotBook

- Developed a booking calendar with unique time slots and an administrator workflow to confirm, cancel, or mark paid (status flag only; no payment gateway). Uses dummy data. Feature tests are in the repository.

DeskFlow

Node.js, Express, SQLite | deskflow-w1n5.onrender.com | github.com/Brian-K05/Deskflow

- Developed a staff and client request desk with row-level visibility, a status workflow, and staff CSV export. Uses dummy logins. Tests cover the visibility rule.

PaperOut

Python, Flask, python-docx | web-production-97c62.up.railway.app | github.com/Brian-K05/PaperOut

- Developed a Flask application that converts a validated CSV file into a ZIP archive of Word certificates and an A4 proof of the first row. Uses dummy names only; not a live credential.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Leyte Normal University | 2022 - June 2026

CERTIFICATIONS

- Internship Completion Certificate - Machica Firm, Inc. (486 hours)
- Competence in Practicum Award
- Computer Systems Servicing NC II (TESDA)
- Organized and hosted a webinar on Hexagonal Architecture (19 November 2025). The speaker was a Jetstar senior engineer.
- ASEAN AI Hackathon 2026 - Certificate of Participation (team participant)
